## INTRODUCTION

Greetings, I am Harry Huang, a 15 year old boy who is currently studying as a 9th grader at Hangzhou International School, finding great success in this institution, achieving honor roll a multitude of times and performing consistently academically. In addition I have shown an interest in history (World War 2 and Onwards) since a very young age and have come to learn about it in great depth. In the last few years, I have had a greater interest in politics and have sought to learn more about it and value economics more than previously.

---

## EDUCATION

Attended Hangzhou International school for 9 years, currently attending Hangzhou International School as a 9<sup>th</sup> grader in the school.

## SKILLS

- Computer literacy skills, understanding how to work with computers and how to fix common issues,
- English and Chinese language skills, being able to speak, listen to, read and write both of them fluently,
- Verbal and written communication skills,
- Strategic planning skills,
- Time-management skills to complete work prior to deadlines elapsing,
- Teamwork and team management skills as witnessed during different group projects.
